OLFACTIVE NOTE

Fresh, soft and clean floral odor reminiscent of white petals and blossoms of many flowers; magnolia, tuberose, muguet, etc.

PERFUMERY USAGE

MAYOL® harmonizes wonderfully with muguet, lilac, tuberose, jasmin floral and with citrus notes particularly bergamot. It combines well with muguet ingredients, often giving lift and smoothness to the fragrance. With woody and methylionone blends, MAYOL® diffuses the woody character to the top of the perfume. Small percentages give floral freshness and large amounts can produce original effects.

PHYSICO-CHEMICAL PROPERTIES

appearance	colourless liquid
flashpoint	99°C
vapour pressure	0.90 Pa at 20°C
purity	min 98%
log p (measured)	3.45
molecular weight	156
